For control 1" x 1":

Cut out the templates around the seam allowance lines.

Shorten your sewing machine's stitch length in preparation for foundation paper piecing. I like to shorten mine to 1.5.

Sew all templates. After that using your rotary cutter and quilting ruler and trim around the paper piecing templates. Be sure to leave your seam allowance.

Sew Template B to Template A, Template D to Template C.  
Place your Template A+B units right sides together with your Template C+D and sew together diagonally.

Repeat these steps three times and then sew all the pieces together. Press your seams open.

The block measures 12-1/2" x 12-1/2" unfinished.
